Shipping and Handling added to order.

Filming & Video Editing Prices

We are available from Sunday to Friday (sundown). No services available on Saturday, special filming can be pre-arranged for sermons.

SCRIPT WRITING AND FILM PRODUCTION BASICS:

Basic scripts are needed for just about any film. The more detailed the better so we all know what to expect and all expectations are identified. We can assist you in script writing for \$30/hr. If you are not directing this production yourself (and have some experience directing) you will need to hire someone from our crew, or your own, as a director. NOTE: For very basic filming such as lectures, sermons, weddings, and other event style filming, simply explaining expectations and having someone available to answer any questions we have during the entire function is sufficient.

FILMING:

Includes 2 camera operators and 2 professional 3CCD High Definition camera with professional Sennheiser wireless mics - (We have 3 Sony HXR-NX5Us and 1 Nikon 5100, others can be rented as needed - rental cost extra):

\$750 per day (8 hours, overtime is billed at \$135 per hour) -- \$500 per day for one camera operator

\$400 per 1/2 day (4 hours, overtime \$95 per hour up to the day rate) -- \$250 for one camera operator

\$250 per 1/4 day (2 hours, overtime \$95 per hour up to half day rate) -- \$150 for one camera operator

(Discounts for large projects and/or non-profits may be available, call for a quote.)

Time starts when we arrive at the pre-arrange day and time*. For multiple camera setup on an event such as wedding, lecture, or sermon, we need 1 hour before an event to scout location and set up. Crane/Jibs add an additional 45 minutes. Set up is considered part of filming. For multiple location filming with single camera, and no audio or only one mic, IE: "Mission Spotlight style" or reality TV style, set up is 15 to 20mins.

Driving travel is billed at \$0.45 per km* (over 100 km from Elko, BC), other expenses are billed at cost plus 10% -- IE: hotel rooms, plane tickets, meals, location fees, wages for extra camera operators (over 2), etc.

*For multiple location shoots same day, travel is billed at \$0.25 per km and day rates apply.

ADDITIONAL EQUIPMENT AND OPERATORS:

1 additional operator and camera on tripod - \$250 per day (\$50 per hour after 8 hours)

8" crane/jib, camera and operator - \$350 per day*. (\$75 per hour after 8 hours)

Steadipod - \$100 per day*. (*Plus extra travel expenses if required, ie: on airplane.)

Boom mic - \$350 per day hand held with audio tech.

Green Screen - \$250 per set up. Includes additional set up time & lighting (we will come early no extra charge)

Lighting equipment for small room (under 100 square feet) - \$150 per day.

Director/Producer - \$350 per day (FREE if multitasking ie: running secondary camera on tripod.)

EDITING:

\$40 per hour basic editing (Basic idea how long editing takes: sermons, weddings, concerts are approximately 1:10 plus 3 hours for setup and menu creation. That means for every 1 minute of filmed footage it takes 10 minutes to edit it. So a 1 hour wedding would take 13 hours to edit. If there are Power Points, such as in a lecture, editing is about 1:13 plus 6 hours for setup. Promo or movie style videos with graphic creation, special effects, or voice overs are 1 min to 1-6 hours or more depending on how many graphics need to be created, how complex the graphics are, and so on.) We can give you a closer estimate for a project if you have a detailed script.

\$50-100 per hour for aftereffects/animations/etc. - estimated (may be outsourced to ensure high quality)

\$100 per hour for custom musical scores -- outsourced to professional musicians to ensure high quality

\$5 to 100 per song for stock music tracks, varies and can be discussed as needed.

DVD DUPLICATION: SEE PAGE 3
